Education

Bachelor of Computer Science — Kadri Zeka University, Gjilan, Kosovo

Experience

Genpact— AI Engineer intern (March–July 2026)

- Strengthened practical skills in Python and SQL through guided learning, exercises, and technical evaluations.
- Completed the learning and testing phase and earned Databricks Machine Learning Associate and Generative AI Associate certifications.
- Worked on a final group project, applying AI and data concepts in a collaborative team setting.

Solution25- Backend Developer intern (October-December 2025)

- Developed backend functionality for e-commerce systems using platform-based workflows.
- Worked with APIs, databases, business logic, debugging, and backend feature implementation.
- Collaborated with development teams in an agile environment

Rick's Market, Ocean City, Maryland — Cashier (June–August 2024)

- Managed cash register transactions and provided excellent customer service.
- Maintained a clean and organized checkout area.
- Assisted with shelf stocking and store organization.

La Bamba, Beach Haven, New Jersey — Server (June–September 2023)

- Greeted and assisted guests, took food and beverage orders, and managed table service efficiently.
- Communicated menu details and handled allergy-related inquiries.

Playa Bowls, Beach Haven, NJ — Server/Cashier (June–August 2023)

- Prepared smoothies, juices, and açai bowls per customer requests.
- Managed transactions and maintained stock levels in prep areas.

Technical Skills

Programming Languages: Python, SQL, PHP, JavaScript, HTML, CSS, Java

Libraries: NumPy, pandas, matplotlib, jupyter notebook, scikit-learn, pytorch, tensorflow

Frameworks & Tools: Laravel, REST API, Git/GitHub, Adobe Pro, React (Basics), Symfony

Soft Skills: Problem-solving, Collaboration, Communication, Adaptability, Time Management

Projects

Intelligent Bank Reconciliation System (Group)

AI-powered financial reconciliation platform using multiple AI agents for transaction matching, discrepancy detection, policy-based validation, and ERP-ready reporting.

Technologies: Python, FastAPI, AI Agents, JSON, APIs

Gjilani i mergimetareve: www.gjilanimergimetareve.com

Hospital Management System (Laravel, Group Project)

- Designed and developed a hospital platform enabling appointment scheduling, patient record management, and medicine inventory tracking.
- Implemented using Laravel, MySQL, and Blade templates.
- GitHub: <https://github.com/CodeByRona/SistemiMenaxhimitTeSpitaleve>

Movie Management System (PHP, REST API)

- Built a movie web app supporting user registration, ratings, comments, and personalized watchlists.
- Developed a secure admin panel and REST API for user-specific recommendations.
- GitHub: <https://github.com/CodeByRona/MovieHD>

Certifications & Training

- Databricks Machine Learning Associate

- Databricks Generative AI Associate

The Complete Python Bootcamp (13Hours): Go from Zero to Hero- Udemy

The Agentic AI Engineering Masterclass 2026- Udemy

The Complete SQL Bootcamp (30 Hours): Go from Zero to Hero- Udemy

Learn Agentic AI – Build Multi-Agent Automation Workflows- Udemy

Full Stack Development – Tectigon Academy

- Hands-on experience building and deploying full-stack applications using HTML, CSS,

JavaScript, PHP, and MySQL.

Python Programming – ROI Academy

- Trained in scripting, control structures, and data manipulation using Python.

Additional Skills

- Fluent in English and Albanian (spoken and written)
- Strong analytical and data-driven mindset
- Logical problem-solving and algorithm optimization skills
- Critical and creative thinking with strong attention to detail
- Excellent teamwork, adaptability, and time management abilities
